1996
Rowley becomes NTS project chief
1996
Rowley and Dixon co-chiefs on NTS and LVUCP
2000
Rowley retires from USGS
1999 - 2003
Compiled a 1:250,000-scale digital geologic map, began identifying cross sections, and extended study area northward into WRFS
Legend:

Timeline of Peter Rowley's Work for SNWA

2001
Rowley starts Geologic Mapping, Inc. and subcontracts with Dixon for work with LVVWD/SNWA

2003 - 2006
Extended mapping area to include all of WRFS and other areas; compiled geologic map for this larger area; compiled a hydrogeologic map and cross sections

2007
DDC hearing

2006 - 2008
Continued mapping work; assist SNWA with application of geologic framework to groundwater model

2001 | 2003 | 2006 | 2007 | 2008 | 20

2003 - 2006
Prepared map and report for Spring Valley and DDC hearings; testify at Spring Valley hearing

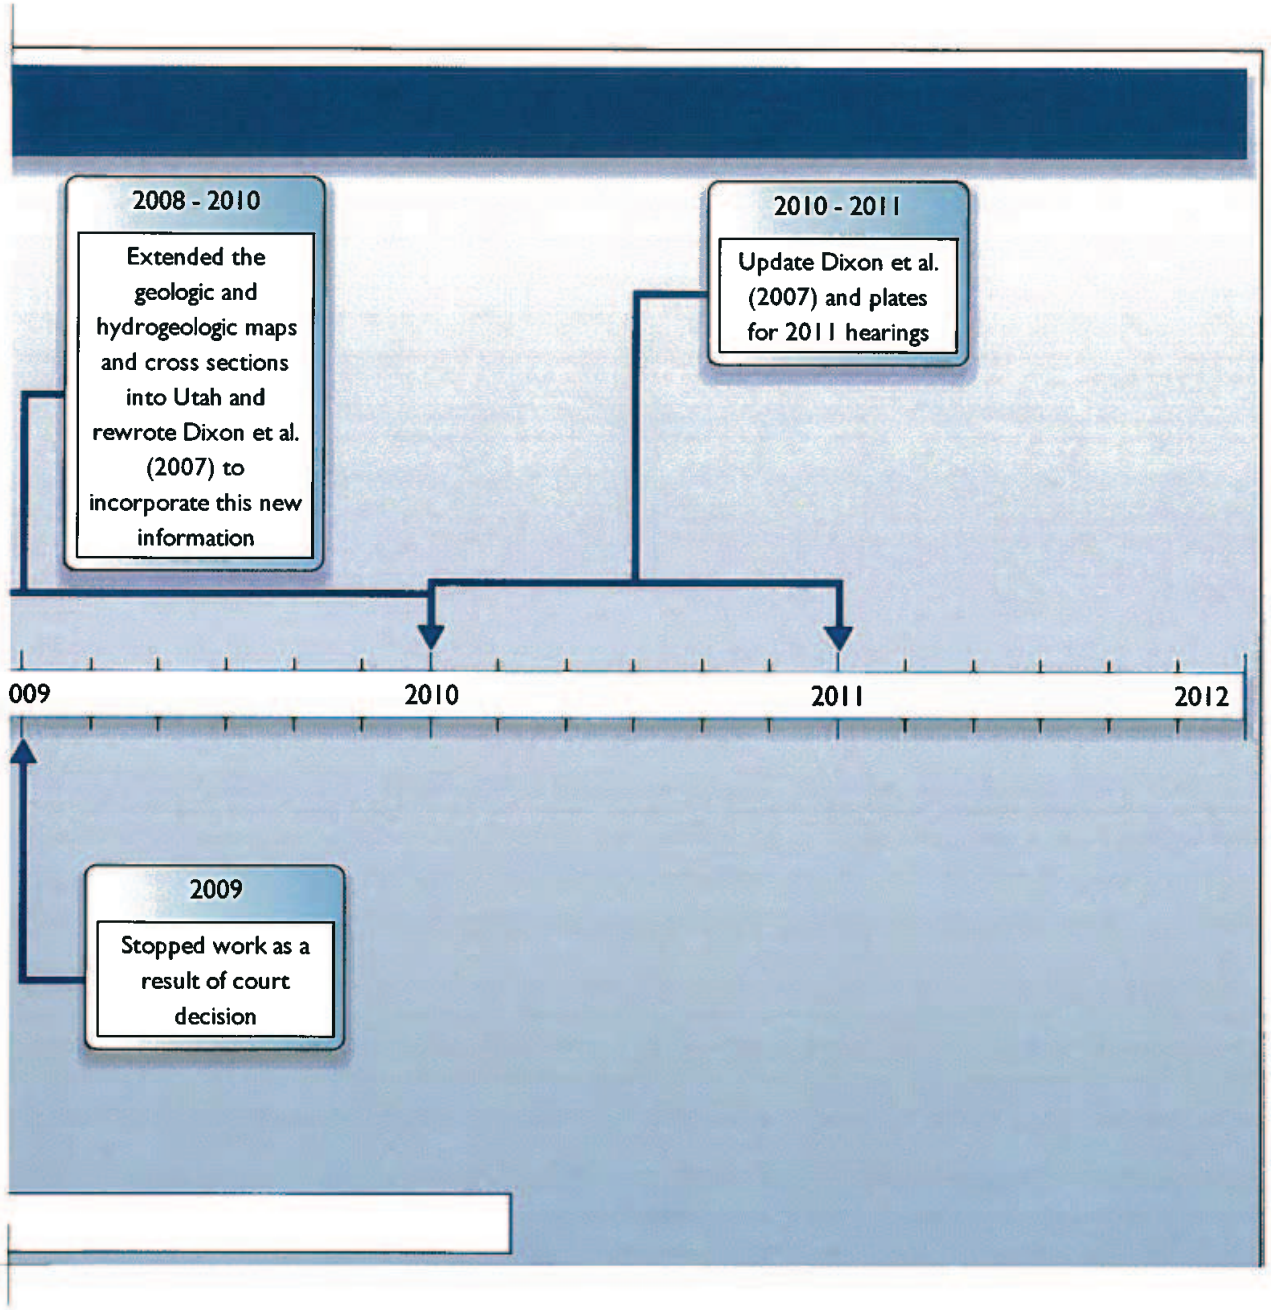
2007
Dixon et al. (2007) published by SNWA

2006
Spring Valley hearing

2008
Volume I (Geology) of Baseline Characterization Report finalized, using Dixon et al. (2007)

2008
Rowley independently contracts with SNWA as consultant

Milestones | Relationship w/ SNWA



2008 - 2010
Extended the geologic and hydrogeologic maps and cross sections into Utah and rewrote Dixon et al. (2007) to incorporate this new information
2010 - 2011
Update Dixon et al. (2007) and plates for 2011 hearings
009
2010
2011
2012
2009
Stopped work as a result of court decision
