**Department of Conservation
and Natural Resources**

State of Nevada

Division of Water Resources

**Continuing Education Unit Regulation
Workshops for Licensed Well Drillers**

2013

Dates, Times and Locations of a workshop may change. We will make all attempts to notify you prior to the workshop and you may also verify your scheduled appointment by calling any of our offices.

Beginning January 2013, all applicants will be tested on the New regulations adopted on July 2012.

NAC 534.2923(1)c requires that all active well drillers attend a Nevada Well Drilling Regulation Workshop once every other renewal period. To satisfy this requirement the well driller must attend one of the regulation classes offered by the Nevada Division of Water Resources.

ON-LINE CEU CLASSES

There are several on-line classes available that can help you earn CEUs as required per NAC 534.2927. The Division of Water Resources has reviewed and approved three individual on-line well drilling schools, all are very informative and educational. Please see listings below:

On Line Well Drilling School -
