STATE ENGINEER'S OPPICE

PROOF OF APPLICATION OF WATER TO BENEFICIAL

DEPOSITION OF PERMITTEE

Note—Questions 1 to 12 inclusive must be answered regardless of the purpose for which your permit for water has been granted. If this proof is made for irrigation purposes, a cultural map showing actual boundaries of land irrigated, together with classes of culture, etc., must accompany same, unless such map has already been filed. (See Sec. 69, Chapter 140, Statutes 1913.)

Question 1.	What is your name, occupation, and postoffice address?
Answer:	Marcos Legarra, Eureka, Nevada.
your authority fo	Are you acting in behalf of a corporation? If so, state its name, place of business, and racting in its behalf.
	No.
	What is the number of the permit under which this proof is made? Answer: 7549 From what source do you obtain your water supply?
Answer:	Maggini Spring No.2
Question 5. V	What is the name of the canal, conduit, or other works by which water is conducted to its
Answer:	Maggini Spring No.2
	Are you the person to whom the permit was issued? If not, state how you obtained it,
Answer:	Yes.
	tle are not on file in the office of the State Engineer, the certificate will issue to the original applicant.) For what purpose are you using the water for which you are now making proof?
Answer:	Stockwatering
Question 8. I and beneficially us (Actual measures	How many cubic feet per second of water, or fraction thereof, have you actually diverted sed for the purpose for which this proof is made? nent of water shall be given. 40 miners' inches equals 1 cubic foot per second. 1 miners' inch equals ute. 448.83 gallons per minute equals 1 cubic foot per second.)
Answer: On	e-tenth second feet.
	State the period during the year when water has been beneficially used.
Answer:	April 1st to November 50th of each year.
	Do you divert and use more water at periods than granted in the permit for which proof make proper explanation.
Answer:	No.
Question 11.	Give date when water measurements were taken, the point at which such measurements he name and address of person who made the measurements.
Answer:	No measurement taken.
	······································

Question 12. Sta at your point of dive	te, if you know, the normal nursion.	mber of cubic feet	per second file	owing in the	source
