100 head of cattle and 500 sheep

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(11) The amount of water which has been necessary to be diverted for this purpose has been 448.83 gal. per min. equals 1 cubic foot per second.
All the source produces which varies from summer to winter
448.83 gal. per min. equals 1 cubic foot per second.
cubic feet per second.

(12) The works are located at NW 1/4 of SE 1/4 Section 28 T. 20N. R54E.
Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed
land, it should be stated.

Remarks This spring has been used for domestic, irrigation and stockwater for over 90 years. A garden was grown there, and holding areas for sheep were built. An old stone house still stands on the spring site, dating back to the 1880's. It has been an operating ranch since that time. The spring is cleaned out from time to time, when necessary, by ranch foreman, in order to maintain the flow.

Remarks. This land has an application for patent date of 1894 by John Hancock recorded at the division of State Land Office in Carson City, Nevada.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by United Dressed Beef, Inc. are full and correct to the best of his knowledge and belief.

Donald D. Eldridge - Agent

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
