ADDITIONAL SUPPORTING REMARKS REGARDING THIS PROOF'S FILING

This spring has been used continuously since 1866 to water the cattle owned by all of the previous owners and the current owners of this ranch.

Support documents for the chain of title and historic and current use of the range in which this spring is appurtenant to the operation of Simpson Creek Ranch/James E. and Vera L. Baumann, are provided in the document of Volume #1 of the Water Filings for Simpson Creek Ranch/James E. & Vera L. Baumann, already filed with the Nevada Division of Water Resources.

This spring was used by this ranch for livestock (and wildlife) long before it was developed for municipal use for the town of Eureka. Then in the 1990's, the municipal use of this spring was abandoned (for more than 15 years) and water was piped to the town of Eureka from Diamond Valley.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by
James E. & Vera L. Baumann are full and correct to the best of their knowledge and belief. (Name)
If proof is not made by the claimant, deponent shall state on this line by virtue of what authority they represent the claimant.
