

STATE OF NEVADA
PROOF OF APPROPRIATION OF WATER

(Statutory vested water rights are those with a priority date prior to: March 1, 1905 for All Surface Sources; March 22, 1913 for Underground Artesian Waters; March 25, 1939 for Underground Percolating Water)

USE(S):

Primary (Please select only one):

Irrigation ☒ Stock water ☐ Mining and Milling ☐ Domestic ☐
Municipal ☐ Industrial ☐ Quasi-Municipal ☐ Commercial ☐
Federal Reserved Right ☐ Other (OTH) _____

Secondary (Select all that may be applicable):

Stock water ☒ Domestic ☐

NAME OF CLAIMANT Beck Family Trust Dated April 19, 2005

Address 289 La Costa Avenue City of Dayton County of Lyon
State of Nevada Telephone No. 775-346-0572 Email Address rbecknet@gmail.com

1. Source of water Torre Creek

Name of natural water source (use separate proofs for each major source such as a spring, creek, river or underground)

2. The means of diversion Palmer Creek Ditch

Dam and ditch, pipeline, flume, natural channel, underground, etc.

3. The water is diverted from the following point(s):

Within the NE1/4 of SE1/4 Section 21, T. 20N., R54E. M.D.M., at a point from which the Northwest corner of Section 21, T. 20N., R54E. M.D.M., bears North 47° 19' 48" West a distance of 5,776 feet.

(List all points of diversion from the source, attaching a sheet if necessary. Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner for any other use than stock water. If on unsurveyed land, it should be stated.)

4. The date of construction of the ditch or other works was begun prior to 1900

and completed prior to 1900

5. The nature of the claimant's title to the land upon which the source of water and place of use is located:

Deeded and public domain

Patented, deeded, public domain with grazing permit, etc.

6. The claimant's water right was / was not recorded in the office of the County Recorder of

(circle one)

County, at Page _____ of Book _____ of _____

7. The amount of water diverted for the claim's purpose has been measured at

1.7 cubic feet per second.

448.83 gallons per minute equals 1 cubic feet per second

8. The place of use location (For Irrigation, skip question #8 and proceed to Question #12):

(List all places of use for the primary and any secondary purposes being claimed, attaching additional sheet(s) as needed. Describe them as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated. If the watering of livestock is accomplished by utilizing the natural stream channel, then describe the 40-acre legal subdivision at the beginning (upstream point) and the legal subdivision at the end of the stream reach.)

QUESTIONS REGARDING WATERING OF LIVESTOCK

9. The approximate number of animals watered by the claimant during the first year of _____ was
_____ cattle _____ horses _____ sheep _____ other (describe in remarks)

The watering was conducted during each of the following months: _____

10. The approximate number of animals watered by the claimant in subsequent years was:

_____ cattle _____ horses _____ sheep _____ other (describe in remarks)

11. The water is impounded in _____
Trough(s), tank(s), pool(s), reservoir, natural channel, etc.

QUESTIONS WITH REGARD TO IRRIGATION

12. The date of survey of ditch, canal, or pipe line was _____

13. The dimensions of the ditch or canal as originally constructed were: Width on bottom _____ 2 _____ feet,
width on top _____ 3 _____ feet, depth _____ 1 _____ feet, for _____ lineal feet of improvement,
on a grade of _____ 2 to 4 _____ feet per thousand feet. If conduit has been since enlarged, complete questions 16 & 17.

14. The dimensions and type of pipeline as originally constructed were: Diameter of _____ inches with
a type of pipe of _____ for _____ feet in length.

Examples: Corrugated Metal Pipe, Riveted Iron Pipe or Wrapped Wooden Pipe

If conduit has been since enlarged, complete questions 16 & 17.

15. The conduit has / has not been enlarged.
(circle one)

16. The work of enlargement of the ditch, canal or pipeline commenced _____
and completed _____

17. The dimensions of the enlarged ditch or canal are: Width on bottom _____ feet, width on top _____ feet, depth _____ feet, for _____ lineal feet of improvement, on a grade of _____ feet per thousand feet.

18. The dimensions of the enlarged pipeline are: Diameter of _____ inches with a type of pipe of _____ for _____ lineal feet in length.
Examples: Corrugated Metal Pipe, Riveted Iron Pipe or Wrapped Wooden Pipe

19. The claimant is / is not the owner in the above-described conduit.
(circle one)

If claimant is an owner in the conduit, state interest held on this line.

20. Crop(s) of natural pasture grasses and vegetable gardens
(e.g. alfalfa, native hay, grain, orchard, meadow or diversified pasture)

have been grown upon the land(s) irrigated.

21. The season of use for irrigation is typically from April 1st to September 30th of each year. The average number of cuttings in a year is typically _____ cuttings and the maximum number of cuttings in a year is _____ cuttings.

22. The water claimed has / has not been used for irrigation each and every year since the right was initiated.
(circle one)

23. The years during which no water was used for irrigation or during which the full water right was not used were
(If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given, appending a sheet if necessary):

24. The characteristics of the soil are loam
Sandy, gravelly, loam

25. The minimum flow needed to push the diverted water over the claimed place of use in an average year is 1.8 cubic feet per second. The quantity of water used to irrigate the claimed place of use during an average irrigation season is 140.96 acre-feet per annum.

26. The maximum flow diverted to the claimed place of use in an irrigation season is 2.3 cubic feet per second.

27. List the year of priority for acreages irrigated prior to March 1, 1905, from all points of diversion previously described, with their corresponding subdivision. (Attach additional sheets as needed.)

Date	Acres	Quarter-Quarter	Section	Township	Range
1883	2.09 / acres in the	NESE of Sec.	21	T. 20	(N/S.), R. 54 E. (circle one)

ADDITIONAL SUPPORTING REMARKS REGARDING THIS PROOF'S FILING

The water from Torre Creek has been used to irrigate land on the old Palmer Ranch for well over 120 years ago. The is a livestock operation that raised hay in the canyon to winter the stock over on. John Torre ran this ranch from 1883 to 1908 and the deed from him to Enrico Parmigiani, Book 16 of Deeds, Page 84, 85, 86 and 87 describe the patented land in more detail. The water is removed at the point of diversion and then spread over the land by feeder ditches designed to give maximum coverage for the water. Saddle horses were kept in these meadows along with rams and/or bulls. Steers were wintered over on the land as growth provided.

John Hancock filed an application for patent in 1894 on 560 acres of which this land is a part. Recorded in Nevada State Land Office, Carson City, Nevada.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by

Beck Family Trust Dated April 19, 2005 are full and correct to the best of their knowledge and belief.
