Re: Application 80700 – Applicant NFWF Initial Evidence Exchange

Dear Mr. King and Ms. Joseph-Taylor:

As a result of a technical glitch when copying files onto flash drives, the flash drive that we sent yesterday to you as the filing of the NFWF Initial Evidence Exchange did not include a an important file necessary to run the DST model file pack (Exh 115). We are sending to you today for delivery tomorrow a new, substitute, flash drive which has all NFWF exhibits including that model pack file.

We request that you destroy the flash drive you received today to avoid confusion. In an additional effort to avoid confusion we have added to this flash drive a folder entitled “AAA Read Me First” with a one page pdf in that folder entitled “Read Me First” which identifies the flash drive as the correct one. The flash drives delivered to all Protestants contained all the correct files and none need to be substituted out.

I apologize for the mix-up.

Very truly yours,

WOLF, RIFKIN, SHAPIRO, SCHULMAN & RABKIN, LLP

Don Springmeyer
