Notes:
 1. This data is shown as it appears on the State Engineer's abstracts posted on the Nevada Division of Water Resources' website.
 2. Some of the information has been supplemented with items from original applications.
 3. Items such as acreage under irrigation from each right has not been updated per the most current mapping provided to the State Engineer.
 4. **Highlighted items are those water rights that should have been transferred to the Corporation following the purchase of properties in North Spring Valley, but are still listed under previous owners. The CPB and its predecessors in interest have maintained these rights.**
 5. Support information and mapping for Cleveland Creek water rights shows intermingling of water from Indian, Freshhill and Stephens Creeks as well as various springs within the Cleveland Ranch.
 6. Applications 80453 - 80456 to Change the Point of Diversion, Manner and Place of Use of Permits 3186, 8393, 10487, and V01080 are on file with DWR, current status is RFP.
 7. There are several critical water sources with yet unfiled claims of vested right. The CPB intends on filing Proofs of Water from these sources, and therefore reserves the right to update this report as necessary to account for any new information that
