Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's important for me that the Great Basin water stays in the Great Basin because of the personal experience that I have of the area.

Why is this being thought of as an option? What makes us think that we can keep destroying our Earth, with no consequence? I don't think that we are entitled to do this.

Sincerely,

Abbe Feigenberg
1270 Burnham Ave. Apt. 1135
Las Vegas, NV 89104

We urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Abbe Feigenberg
