State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Dear Mr. King,

This expensive and exploitive plan needs to stop, ASAP. We should not make NE Nevada suffer for our (questionable) water needs, and sock customers with an unacceptable rate increase.

Sincerely,

Adrian A. Havas
Las Vegas resident

Sincerely,

Adrian Havas
