Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

My children have great memories of our trip to the Great Basin National Park years ago.

I'd like to have the opportunity to show it to my grand kids one day and being able to say it's as beautiful as ever instead of seeing it obliterated by the horrible proposed aqueduct.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Aida Shirley
