Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Let's not turn central Nevada into another Owens Valley. And please don't believe the argument that increasing the water supply in the LV area will restart their economic recovery.

Jean Stoess, Chair
Toiyabe Chapter
Sierra Club

We urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Alfred & Jean Stoess
