Re: Southern Nevada Water Authority Ground Water Application
Please Reject this Application

Dear Chief Hearing Officer,

I oppose the water pipeline. Please reject this project, as its long term impact will certainly have a devastating affect for the local residents and the environment. There all alternative to this pipeline and I believe they should be explored.

Doubling conservation efforts and raising water rates in Southern Nevada should also be considered. Southern Nevada must learn to live within its (water) means to be sustainable.

Please Reject This Pipeline.

Sincerely,

Andy Bowers
