State Engineer Jason King  
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

The water needs to stay where it is to keep agriculture in the area. In the future where are we going to get food for the people is there is no agriculture.

Sincerely,

Barbara Byington

Sincerely,

Barbara Byington
