State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

WHAT'S WRONG ABOUT BUILDING DESALINATION PLANTS IN CALIFORNIA SO THAT IMPERIAL VALLEY GETS WATER FROM THEIR OWN STATE. THEN THEY WOULD NOT HAVE TO SHARE THE COLORADO WITH US. ISRAEL HAS BEEN USING THESE FACTORIES FOR YEARS, AND THEY HAVE ALSO DEVELOPED PLANTS THAT GROW IN WATER WITH A HIGH SALT CONTENT. WE SEEM SO FAR BEHIND IN OUR WATER PROJECTS, WHEN YOU KNOW SYSTEMS WORK MUCH BETTER IN OTHER COUNTRIES.

Sincerely,

Barbara Chozahinoff
