Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

I have camped and spent time in the Great Basin Area and I would like to see it remain in its natural state, with water for wildlife and natural plants. There are other alternatives including restrictions on grass and other non native plants in southern Nevada. Being a Las Vegas resident, I am very familiar with the problems. With stand up for the natural beauty of northern Nevada.

Thank you.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Betty Ramsey
