State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

I do not believe we should take water from our friends from the north. We should first stop all growth here and stabilize our needs first. We DO NOT need to keep building more! We DO NOT need to grab the water from the north!

Sincerely,

Bonnie Brown
