State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It is not right to sacrifice one part of the state for another, particularly when both parts are likely to suffer, albeit in different ways.

Sincerely,

Carol Perry
1710 Woodtrail Dr
Sparks, NV 89434-8827
