State Engineer Jason King, State Engineer  
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

I have lived in Las Vegas for 30 years and am embarrassed by Southern Nevada's greedy water grab. We need to take responsibility for our own water usage and not just steal water from others when we want it!

Sincerely,

Carrol Kuhlow  
2527 Capistrano Ave  
Las Vegas, NV 89121-2105
