State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

We need to encourage more conservation instead of grabbing and stealing water from rural Nevada. Let's stop this corrupted deal now. The SNWA wants to suck dry northern Nevada so we can build more golf courses and Las Vegas can have green lawns all over . I am totally opposed to my rates going up to pay and to fill the pockets of corrupt politicians and water administrators with money. Do the right thing dont let them do it.

Sincerely,

cesar pino
