State Engineer Jason King  
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Please don't allow this to occur, Southern Nevada needs to control its size or the whole Vegas valley will be intolerable. SNWA needs to work on a somewhat larger piece of the Colorado River due to our population growth.

Sincerely,

Charles Auer  
2126 Fallsburg Way  
Henderson, NV 89002-3631
