State Engineer Jason King  
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Southern Nevadans pay too much for the use of water (even after we're told to watch our water usage), we can't afford higher rates for half ass ideas that do not solve the problem ....

Sincerely,

Cj Brown  
6428 Saddle Up Ave Unit 102  
Henderson, NV 89011-1339
