State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

And.....the price increase over the initial projection is UNREAL! Seriously???? I cannot believe any of this!!! This needs serious reconsideration.

Sincerely,

Constance Ewing
