Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Please do not sacrifice one of our most beautiful parks! The scientific information shows overwhelmingly that depleting the groundwater would annihilate a huge wildlife habitat as well as destroy the Native American Communities in the area.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mrs. Deirdre Pederson  
7 Comstock Cir
