State Engineer Jason King, State Engineer
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Mr. King,

I stand against buling this pipeline. Las Vegas long ago outgrew the ability of the surrounding ecosystem to support the population. Don't make things worse to make the developers happy. Do the right thing.

Dennis Travers
