Mr. King

Nevada has been hit hardest by this recession. A driving factor in our economic mess has been staggering over-reach in the housing and commercial markets. Statewide, local governments have approved project far, far in excess of what is actually needed in our communities, especially now. This in turn promotes speculation, artificially driving up prices and demand.

DO NOT

DEC 01 2011

Unbridled expansion is not sustainable from an economic nor from an environmental perspective.

LAS VEGAS OFFICE

Southern Nevada Water Authority's proposal will risk the livelihood of both those in Eastern Nevada by draining their resources and those in Southern Nevada who will be forced to pay for expensive project.

STATE

Please deny SNWA's request for water rights in the Great Basin.

Nevadans cannot afford this project.
