Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's important for me that the Great Basin water stays in the Great Basin because of the personal experience that I have of the area. As an 82 year old teacher I have spent years watching the Mono Basin of Californis dry up and It didn't take very many years. Do not ruin one area of NEVADA for the benifit another. Let people be more aware of the ways to save and/or reclaim the water they all ready have. Consider!!!!

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Elizabeth Thomas
