Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

So make it a condition that if this project is approved, Las Vegas water rates cannot be increased more than 0.1% per year for the next 100 years. If members of the Southern Nevada Water Authority really want this, let them pay for it out of their own pockets!

We urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mr. Fred Thompson
