Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's important for me that the Great Basin water stays in the Great Basin because there it remains an important part of the desert ecosystem, a system that includes more than the needs (read 'greed') of we the people. Plus, bringing more water to Vegas will just encourage more unsustainable growth here in the valley: we are already living way beyond our limits, and quality of life will be sacrificed for quantity...for what gain...i.e. whose profit?! Enough is enough!! This is an ethical and moral issue as well as a practical one.

Rev. Gail Collins-Ranadive

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Gail Collins  
10000 Heyfield Dr  
Las Vegas, NV 89134-7534
