State Engineer Jason King  
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

As they state above, we do not need this pipeline. My water bill was \$223 last month. We cannot bear any more burden as homeowners.

Sincerely,

Jeanne DuBose
