Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

As a person who has lived and voted in Nevada for the past 39 years, this idea seems to be hurtful to so many, regular citizens of our State, to benefit the monied interests, are willing to push hard to get they want no matter who gets hurt.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mr. Jerry Hirsch
