Subject: A 300-Mile Pipeline is Not the Answer.

Dear Jason King,

Great Basin National Park is an extraordinary place--remote, scenic, and treasured by millions of Americans who value our national park system. Plans to pump millions and millions of gallons from the park's vast ecosystem greatly threaten what is special about this place.

I appeal to you, Mr. King, to dismiss questionable, ecologically-unsound plans to pump and move water from one location in Nevada more than 300 miles to Las Vegas. I appeal to you to respect Nevada's sole national park and make certain the park's resources are sustained for generations to come.

Do not sacrifice the future of Nevada for the greed of the developers and bankers. They have overbuilt here in Las Vegas and should not be allowed to force farmers and ranchers to sell their land or lose everything because some other part of the state wants to reallocate basic human rights from individuals to the corporations and make all of us pay for it.

Thank you for your thoughtful consideration.

Sincerely,
Ms. Jessica Souza
