

Water Pipeling Comments <nsepipelinecomments@gmail.com>

Please deny the demand from the Southern Nevada Water Authority for groundwater rights in White Pine and Lincoln counties.

Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Dear Mr King.,

It's important for me that the Great Basin water stays in the Great Basin because of the personal experience that I have of the area. I worked for the Nevada Division of Environmental Protection for 20 years and am well aware of the potential destruction that this pipeline could cause. I believe the scientific information is overwhelming that draining 50 billion gallons of groundwater would have a long term impact on wildlife habitat, and the rural communities ability to come out of the recession.

I urge you to deny the application filed by the Southern Nevada Water Authority and and support the best interests of all of Nevada.

Sincerely,
Jim Cooper
