Mr. King

Southern Nevada Water Authority's proposal will risk the livelihood of both those in Eastern Nevada by draining their resources and those in Southern Nevada who will be forced to pay for expensive project.

Please deny SNWA's request for water rights in the Great Basin.

Nevadans cannot afford this project because it will only facilitate another boom and bust cycle in southern Nevada while destroying recreational resources that enhance the quality of life for all Nevadans. In addition wildlife resources will be severely depleted and disputes and controversies will continue on into the indefinite future. The costs to SNWA, southern Nevada, and the state of Nevada will be much greater if the water rights are granted than if they are denied. While the political pressure to approve the applications must be intense, approval is not in the public interest!
