State Engineer Jason King, State Engineer
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

If the ground water rights are misused in this environmentally devastating way, it will have long range issues of high water rates we can't afford here in No. Nevada, ruining habitat and farm lands, and a tax that will overwhelm all of Nevada. Please do not pass this bill or allow billions of gallons to be used in this manner.

Sincerely,
Joy Pierce
Reno, NV

Sincerely,

Joy Pierce
