Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

As Las Vegas, with its declining population, does not actually need the water and it is so desperately needed by the plants and animals in the Great Basin area, I urge you not to grant this water permit. Please consider what is best for the future of the state and decline to grant this permit

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Kathleen Brady
