Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Dear Nevada State Engineer,
I oppose the redirecting of Great Basin groundwater to the Las Vegas water authority in the strongest possible terms. It is simply wrong to destroy that habitat and the Native American communities and rural economies dependent on the status quo in order to support unsustainable development in Las Vegas.

If the water was intended for Las Vegas, it would exist there. Leave it where nature intends it to be. Do not go against public will and natural law because you think you have the power to do so.

Kathryn Bricker
Zephyr Cove, NV 89448.

We urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Kathryn Bricker
