Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Please reject the SNWA request to steal water resources from other areas. Besides the irreparable damage to water tables far from the site of delivery, this is problematically intended to allow for the unimpeded growth that merely exacerbates existing water problems caused by irresponsible development (which incidentally has contributed greatly to our major economic problems as of late). It should be apparant that the only entities to benefit from this water grab would be developers and the SNWA itself.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mr. Lewis Reiwitch
