State Engineer Jason King, State Engineer
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

This is the worst possible time to even think about tripling the water rates of Southern Nevada residents.

please say no.

Sincerely,

lilia franco
