Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It would be bad for the environment and bad for the Nevada taxpayers! It is time to focus on conservation and stop raping the land. It should be illegal to have lawns in Las Vegas. It is a huge waste of water and not sustainable! It is time for clean, sustainable answers, instead of sucking up the resources like there is no tomorrow!

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Lisa Atkins
