State Engineer Jason King, State Engineer
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's not the business who use the water, it's the homes.
Let's develop a program to stop using so much water,
that would be a good job for you.

Sincerely,

Marulyn Mackett
