State Engineer Jason King  
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

This project only serves to fulfill the purposes of a very few vested interests. The overall interests of the greater number of Nevadans are not served. This project is a very bad idea at this time. Please reject it. Thank you.

Sincerely,

Michael Shema  
4547 E Viking Rd  
Las Vegas, NV 89121-4646
