Re: Southern Nevada Water Authority's pipeline plans

Dear Ms. Joseph-Taylor,

I wish to go the record that I am against the Southern Nevada Water Authority's pipeline plans that will take water from the Spring Valley and three basins in Lincoln County. As a landowner in Pioche and in Henderson, I am concerned not only about the water supply to Lincoln County, but also to the surrounding areas of the Great Basin. The ecological impact to the water shed in this area will not only impact the vegetation, but also those who make their lives on the working ranches and farms in this area. The economic impact on these Nevada residents would be devastating.

Please preserve this important part of the heritage of Nevada and rule against this development.

Thank you

Kathleen O. Hesse
