State Engineer Jason King  
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

We can't play with our water this way. It is where it is for a reason. We may not understand all the ramifications nor impact of such a huge project until it is too late. Please DO NOT ALLOW this to happen.

Sincerely,

Pamela Ertel  
882 Longleaf Pl
