Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's important for me that the Great Basin water stays in the Great Basin because of the long term damage its removal would cause to the denizens of Nevada's rural countryside. They are as much citizens of this state as the city dwellers and they have a right to their environment not being destroyed to satisfy SNWA's plan.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mrs. Patricia McRae Baley  
4150 E Pinecrest Cir  
Las Vegas, NV 89121-4920
