State Engineer Jason King, State Engineer  
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

As a resident of Nevada, I've seen my water bills triple for the last decade, while the parks/recreation, casino resorts and golf courses get discounts and waste Nevada's valuable resources, the bills are passed down to the struggling residents.

What I do not want is higher bills in the name of water pipelining from N. Nevada to benefit the selected few mentioned above. Stop this madness!

Sincerely,

Pauline Williams
