Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Las Vegas does NOT need to GROW anymore. Developers have all but ruined the desert, not taking into consideration- it is a DESERT. Our state is being ruined acres at a time-wildlife being torn from its' habitat-wilderness gone forever covered by concrete. Save what we have left-leave the Great Basin as it is. The Water Authority does not have 'authority' over this-we share this planet-no one entity OWNS it.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Miss Pj Palade
