Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

What other options do you have for water for Las Vegas? I love the natural beauty of the Great Basin. It's water is a key element providing habitat for so many species. I don't want this area to become the desert that Las Vegas is. Find other options for water that are nearer the location where the water is needed.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Rhonda Lafontaine
