State Engineer Jason King, State Engineer  
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

We must begin to live within our means as a State which is no different from us as individuals and families. While the message you are receiving is standard and assists us who haven't had personal time to draft individual opinion e-mails, it does reflect my personal feelings exactly.

Respectfully,

Richard Cherchio  
417 Horse pointe ave  
NLV, NV 89084

Sincerely,

RICHARD CHERCHIO  
417 Horse Pointe Ave
