State Engineer Jason King, State Engineer
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

I trust that you will carefully consider the known negatives and factor the vast unknown potential effects and discard this solution to southern Nevada's water needs. Time to use creativity and other resources to solve this problem.

Sincerely,

Rosemary French
6666 Evans Creek Dr
